THE ZANFRETТА CASE

Chronicle of an Incredible True Story

Author: Rino Di Stefano **Book Details:** Paperback, 280 pages – illustrated
Price: £10.00 Paperback, £3.99 Kindle **Available on Amazon**

If we are honest we all have perhaps a type of UFO case that we prefer to read about. For me it is the 'classic' cases of close encounters from the 1970's. A time before I began my own involvement in UFO research and investigation.

It was therefore a nice surprise to see such an encounter case covered in-depth in this new book in English for the very first time. *THE ZANFRETТА CASE* by Rino Di Stefano has been published in Italian before and it is indeed one of the classic encounter cases not just from Italy, but from the whole of Europe.

It was December 1978 when security guard Pier Zanfretta had his close encounter in the hills of Genoa, Italy. Here there were no little grey aliens involved but a large humanoid around 3 meters tall.

There is a huge amount more to this story as one might imagine as the author calls it "The most documented Alien Abduction in the world".

The book itself is packed with all the details of a quite remarkable close encounter case. It is backed up with photographs; illustrations, transcripts of hypnotic regression sessions and a whole lot more. No stone is left unturned in this book I can assure you and everything is in there for you as the reader to make up your own mind.

For me this book is an absolute gem and I can only hope we see more from this and other authors detailing such encounter cases. This book is a welcome addition to my

UFO library and if you don't read any other UFO book this year I would recommend you read this one.

THE ZANFRETТА CASE takes a fascinating look at a classic UFO close encounter case. Provides all the details, all the documentary evidence and is an invaluable addition to the UFO literature.

In 2015 I hope to set up my own small book publishing company and when I do this is the type of book I want to publish. I cannot pay the author any bigger compliment than that.
